

AIRfiber

AIR CUSHIONS
MADE OF PAPER

AIRfiber COMBINES THE ADVANTAGES OF AIR CUSHIONING WITH THE BENEFITS OF PAPER.

With AIRfiber, Storopack offers another innovative solution that perfectly complements its air cushion portfolio. The innovative air pillows are mostly made of paper in combination with a water-soluble inner coating. This unique combination of materials ensures that this packaging can be recycled with paper. The inner coating dissolves during the recycling process and leaves no harmful traces behind. AIRfiber bears the 'Made for Recycling' seal by interzero® according to DIN EN 13430. AIRfiber also delivers big volume using minimal material, which was previously only possible with conventional air pillows. Therefore the cushions can be used for the usual packaging applications.

WATER-SOLUBLE INNER COATING & PAPER

AIRfiber AT A GLANCE

- ▶ CREATES BIG VOLUME USING MINIMAL MATERIAL
- ▶ MOSTLY MADE OF PAPER IN COMBINATION WITH A WATER-SOLUBLE INNER COATING
- ▶ CAN BE RECYCLED WITH PAPER
- ▶ OFFERS WEIGHT AND COSTS ADVANTAGES COMPARED TO CRUMPLED PAPER SOLUTIONS REGARDING TRANSPORTATION, HANDLING AND DISPOSAL FEES, AS LESS PAPER WASTE IS PRODUCED
- ▶ RUNS WITH EXISTING STOROPACK AIR MACHINES
- ▶ BEARS THE 'MADE FOR RECYCLING' SEAL BY interzero® ACCORDING TO DIN EN 13430

Great for a variety of products:
AIRfiber offers the same applications as conventional air pillows such as cushioning or blocking and bracing as well as filling voids.

STOROPACK - PERFECT PROTECTIVE PACKAGING

Wherever in the world you send your products, we want them to be well protected while in transit.

AIRfiber IS AIR CUSHIONING MADE OF PAPER .

Storopack's AIRfiber air cushioning combines sustainability with high-volume protective packaging. They are made of paper with a thin water soluble inner layer making them also easy to dispose. This makes them the ideal solution for a wide variation of products.
