PACKAGING

SIX GOOD REASONS
TO USE PAPERplus® PAPER PADDING

STOROpack

PERFECT PROTECTIVE PACKAGING

PERFECT PROTECTIVE PACKAGING

1

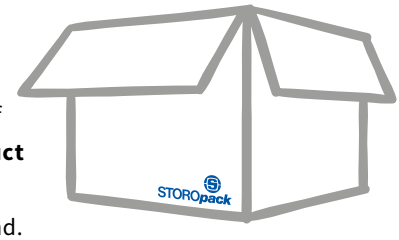
Paper is **made from wood**, which is a **renewable raw material**.

Paper cushions are **versatile** and **reusable**.

2

3

The **outstanding cushioning characteristics** of the paper cushions offer **highly effective product protection**,
ensuring your packages will arrive safe and sound.



Improved product protection using paper padding can help **reduce** the additional costs associated with **returns and replacement shipments**.

4

5

PAPERplus® paper, which is **100% recyclable**, can be used to manufacture raw materials for new paper cushions, without having to compromise on important material characteristics. Some of our paper cushions are also made from **100% recycled material**.

Storopack's paper cushions can be **separated** and **disposed of simply in the paper collection bin**.
